

Total Utah COVID-19 Cases by Hospitalization Status and Age

Total Utah Residents Who Have Been Hospitalized with COVID-19

Hospitalization	Case Count	% of Investigated Cases
Yes	418	8.7%
No	4364	91.3%
Under Investigation	199	---

Total Hospitalizations by Age

Age	Cases	Hospitalizations	% of Cases Hospitalized
0-1	26	0	0.0%
1-14	181	2	1.1%
15-24	774	16	2.1%
25-44	1988	103	5.2%
45-64	1498	171	11.4%
65-84	451	110	24.4%
85+	58	16	27.6%
Unknown	5	0	0.0%

Data Notes:

Hospitalization Data: Hospitalizations in this table represent the total number of cases that have been admitted to hospitals. This count does not represent the number of COVID-19 cases currently in the hospital. Hospitalization data is collected from patient interviews and medical chart abstractions by Local Health Departments (LHDs). While UDOH and LHDs capture most hospitalizations through provider reporting, some patients may be hospitalized after the case was investigated by an LHD and therefore not included in this count. Hospitalizations by age may not sum to total hospitalizations because some cases are initially reported without complete age data.
